LAC LA BICHE NEWS IN BRIEF

Mr. Peddin, manager of Alberta Pulp Wood, went east and purchased a new six passenger plane.

The pulp wood industry is in full swing again.

Mrs. Dorrish and Mrs. Kelar went to Edmonton to the convention.

Miss Beulah Quast went to Opondin for a short holiday to visit her parents, Mr. and Mrs. Henry Quast.

Mrs. Kibby is home again.

Mr. Peter Rozak and family have taken up residence here. Mrs. Rozak is a daughter of Mr. and Mrs. Strumbiski. Mr. Rozak has been employed in the Northwest Brewery in Edmonton for the past three years. He will assist his father-in-law with the big boat, Kay-Vi-Lena, that will accommodate passengers throughout the summer, and also will assist in the Recreation Centre.

Mr. Strimbiski, accompanied by Mr. McElwain, went to Big Island in the passenger boat, Kay-Vi-Lena, last Friday.

Mr. W. Stewart, Meteorological Inspector from Edmonton, is spending four days at the weather office here.

Mr. C. Swanson from Strome, visited here enroute to Waterways where he is agent for the NAR.

Roy Raines and Mrs. Shewchuk were visiting in Edmonton last week.

Miss C. Perron from Vancouver, visited her parents, Mr. and Mrs. Mike Perron.

Miss Leola Schirrmacher returned home after spending a term at Normal School in Edmonton.

Mr. and Mrs. Fil Lavigne and Don Hicken went to the city recently.

Romeo Coutney flew to Yellowknife to visit his sister, Mrs. B. Feniak.

Mrs. Romeo Coutney visited her sister at Camrose for a week.

Miss Margaret Cadieux returned home after spending the past term at Three Hills' Bible School.

Mr. Wilson from Edmonton, is relieving Mr. Connolly, manager of the Treasury Branch, while he is on a holiday.

Bernard Romaniuk has purchased the interest held in Romaniuk Radio Shop by Mike Stefin and will run the store alone. Mr. Stefin will devote his time to his mink farm now.

Ball Tournament Planned For May 24

The Lac la Biche Ball Club is planning a huge Victoria Day celebration by staging a sports day and ball tournament.

The day's events begin at 1 p.m. and will be ended by a dance. Other clubs sponsoring other features connected with the sports day.

See details on another page of this week's paper.

NEWS NOTES FROM THE MISSION

Mr. and Mrs. Marchildon and their little girls, accompanied by Mrs. J. Tardif, visited their uncle, A. Beaudoin on Sunday.

On Sunday Mr. and Mrs. A. Bourrassa and family from Atmore came to attend Mass. They also visited their daughter at the Mission school.

Mr. and Mrs. E. Boudreau and children from Atmore, visited their son Eugene, at the Mission school.

A. Routhier was here on business lately. He went back to his job at the Youville home in St. Albert.

Mr. and Mrs. Eugene Routhier went to Atmore Thursday on business.

Roland Routhier is working for Beaudry Bros. at Atmore.

Andre Cloutier went to Normandeau where he will stay all summer on his farm.

Louis Cloutier went to help his brother, Andre, build his house at Normandeau.

Alfred Beaudoin's heifer cow had twin calves.

Bob Ladouceurt is working at Mr. Pivin's sawmill. They are sawing logs for Bouviers Bros.

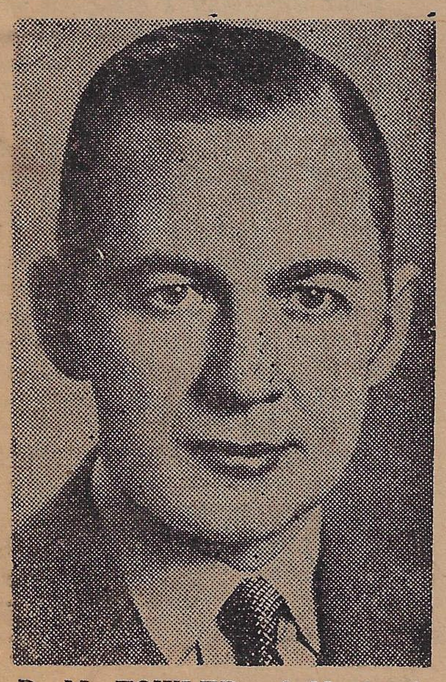

Mr. and Mrs. Paul Hogan and Vincent are visiting relations in Edmonton.

Rev. Father Cabana went to the hospital at Lac la Biche for medical treatment.

Jos. Cloutier and Routhier Bros. are cutting pulp wood at Mrs. Brook's farm.

Rene Bourrassa of Plamondon, and his brother, Leo, were here on business Thursday.

Rev. Father Russel, who is here to replace Rev. Father Cabana, will return home soon.

R. M. FOWLER, of Montreal, president of the Newsprint Association of Canada, has been named to the federal government's new defence production department with authority to control export of newsprint, now in critically short supply.

BREYNAT NEWS ITEMS

Mr. John Roskewich has returned to Breynat from British Columbia where he was employed for the winter.

Since the roads are so muddy and people are in need of going to Lac la Biche, they have been using horses and buggies for transportation. Roger Aubee, Francis Lambert, B. Kokotaylo and G. Franchuk have been out on a trip with horses and buggy.

Mrs. Dick Meyers left her classes at Amesbury and has gone to see her mother.

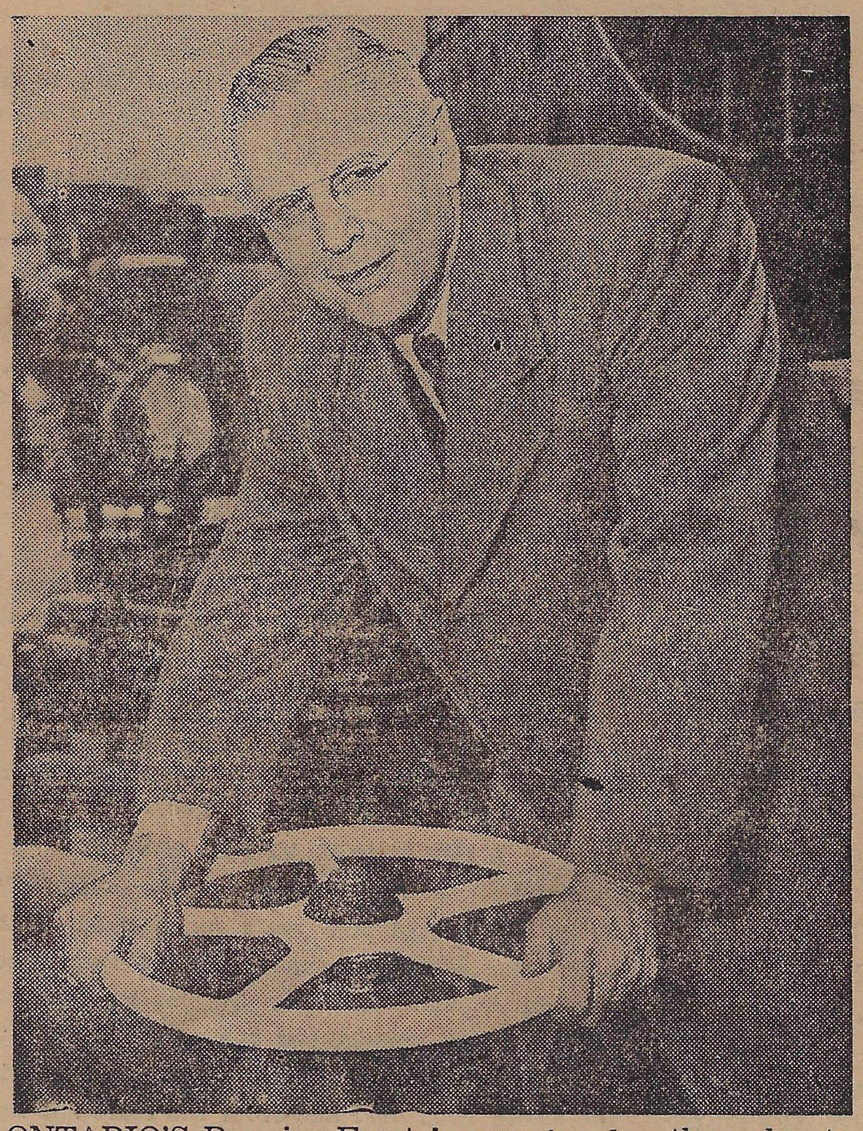

John Lupul has sold half of his farm.

Phillip Hebert and George Gerard have been on a business trip to Lac la Biche with horses and buggy.

On April 28 a meeting was held at the nurses' home to nominate a new staff. Some new members were elected and some previous members stayed on the staff. After the meeting a sale of second-hand furniture was held at the home.

Fred Oshanyk owns some purebred hogs.

The roads are drying up fairly well in this district and the trucks will once again begin freighting to Edmonton.

ONTARIO'S Premier Frost is seen turning the valve to start the flow of oil from tanker to storage tanks in the big Sarnia refinery. Oil can flow through pipes at the rate of 15,000 barrels an hour. Tanker made maiden run from Superior, terminus of 1,127-mile pipeline carrying 4,025,000 gallons of oil.

MICHETTI TEAM LEADS IN POINTS IN LADIES' BOWLING LEAGUE

LAC LA BICHE—Following are scores made by members of the Ladies' Bowling League to the week end:

	Won	Lost	Pts.
Michetti	16	8	32
Badry	15	9	30
Ziniwiz	15	9	30
Roy	12	10	24
Blair	12	11	24
Konovalchuk	10	12	20
Quast	9	15	18
Kilar	9	13	18
Hayduk	6	16	12

SEND NEWS EARLY FOR NEXT WEEK

Correspondents and contributors to this paper are reminded to send in their news early for publication in next week's issue.

Due to the May 24 holiday, work on the paper will have to start early in the week, and correspondents are asked to have their news in at least two days earlier than usual.

Vacant House Burned In Early Morning Fire

LAC LA BICHE — An unoccupied house belonging to John Moisey was destroyed in an early morning fire Wednesday.

The fire was not discovered until it had gained a good hold on the house and by the time the fire brigade was called the building was a mass of flames. Cause of the fire was not known.

The Moisey family had just recently moved into the new house next door. Mr. Moisey was in hospital at Edmonton at the time.

Although the fire brigade was unable to save the older house, it did keep flames from spreading to the new structure. Mrs. Moisey and her children were roused after the fire broke out. Windows in the new house were broken and walls scorched by the intense heat.

Mr. Moisey is town fire chief and police constable.

TREBLED IN 20 YEARS

Canada's consumption of electrical power has trebled in less than 20 years—from about 12 billion kilowatt hours in 1932 to 46 billion kilowatt hours in 1950.

BLUE JAY NEWS ITEMS

Nick Derko, who was one of the candidates for councillor of Division 6, gave a campaign speech in the Blue Jay Community Centre on April 27. He has since been elected by a very large margin and people here hope that he will make some effort to have roads improved in this district, which are impassable at the present time.

Mrs. Caralina Kozlowski is leaving our district and is going to join her husband who is employed in the southern part of Alberta. Mr. and Mrs. Kozlowski arrived from Europe last fall and are relatives of Mr. and Mrs. Stanley Ilnicki.

McRAE NEWS NOTES

Mr. and Mrs. Wm. Parpyshyn motored to Boyne Lake to visit friends over Ukrainian Easter.

The first car in two months went through McRae on April 26, but had to be pulled by Charlie Squirrel's tractor across the new $1,200 grade built by Cooper's road gang late last fall. This outfit forgot to allow for spring drainage of melting snows and the creek water overflow.

Mr. and Mrs. Bobby Henderson were visiting relatives and friends at McRae over the week-end.

John Darda has completed sawing operations at McRae and is now preparing for spring seeding on the farm.

Ray Whitford has returned to McRae after a winter working logging northeast of Lac la Biche. He bought himself a good used two-ton truck for work in the McRae district.

Richard Whitford is a visitor at the home of E. J. Whitford. Richard formerly lived in the McRae district but has moved to Briereville.

Kost Tkachuk and brother, Nick, have again got the itchy foot and have gone out to work.

Worthy Martin and Kenneth Littlechild are visiting with friends at McRae. Kenny looks kind of sleepy today. Perhaps Goodfish has an explanation.

Washington House and Cleophas Littlechild were at Sugden last week, hauling feed for a flock of sheep that must be fed in the yards to save them from the coyotes and wolves. Last year the wolves killed two fine two-year-old heifers.

We are informed on good authority that the road for the school bus route is to be built and graded from McRae to Sugden this year and gravelled.

Jimmy Littlechilds was stuck with a half load of hay on the new hill grade at Squirrel's Corner. Took four good horses to loosen him.

Jimmy Toma has completed arrangements for his marriage to one of Canada's D.P. immigrants, who is expected to arrive within the next few weeks. Johnny farms the old Sowa place.

Buster Cardinal and Frank Squirrel are busy tuning the Model A Fords in preparation for a busy summer of well digging. They come home every Saturday.

Hospital Report

In the hospital during the week were: Mrs. Noe Letourneau of Lac la Biche; Mrs. Wm. Campbell of Atmore; Sophie Stuparyk of Craigend; Harold Borgen of Plamondon; Donald Shapka of Charron; Mrs. A. E. Owen of Edmonton.

BIRTHS

Born to Mr. and Mrs. Wm. Sawchuk of Hylo, a daughter, on May 6; to Mr. and Mrs. August Tremblay of Plamondon, a son, on May 8; to Mr. and Mrs. Henry Michetti of Hylo, a son, on May 9.

Sunday Concerts Planned At Elk Island Park

Sunday afternoon concerts will again be held this year in the Park Bandshell at Sandy Beach in Elk Island Park.

Events are sponsored by the cultural activities branch of the provincial government.

Opening concert will be held May 20 when the RCAF band will present a concert. Edmonton Schoolboys' Band will appear on May 27, Fort Saskatchewan Legion School Band on June 3, Red Deer Rotary Band on June 10 and the Vermilion Ladies' Choral Group on June 17.

Later in the season groups will be heard from Andrew, Wetaskiwin, Camrose and other points.

EDITORIAL PAGE

Prudham on Production

Albertans can be justly proud of their representative in the Dominion Cabinet—Hon. George Prudham, M.P. for West Edmonton. George—as he prefers to be called by his Alberta friends—has, time and again, put his finger on the cause and cure for high prices and the threat of inflation.

The cause, he says, is a lag in production of defence and civilian goods. His cure—more work and longer hours. In a recent CBC broadcast over CBX, Alberta, he indicated that our country is rich in wealth sufficient to make us the richest nation in the world. As Minister of Mines and Technical Surveys his knowledge and opinion in this field of government is extensive. Mr. Prudham knows we have the wealth—and knows how we can get it.

Not as the Labour leaders say, by getting more money with less work. This won't produce more wealth. Not as the Social Crediter John Blackmore, M.P., says, by simply issuing more money credits. The answer lies in more work, more production.

An increase in our industrial work week now from 40 hours a week to 48 would increase production, reduce prices, and enable workers to buy more civilian goods without the threat of increased inflation. As individuals, and as a nation are we prepared to roll up our sleeves and go to work? Or will we be rocked to sleep in the myth of higher wages and shorter hours?

Oil *vs* Gas

Decision handed down by the Supreme Court of Alberta late last week to the effect that natural gas and petroleum are distinctly different products will please many Albertans who might benefit from the judgment.

These include an estimated 5,000 farmers holding about 2,000,000 acres of land.

The court's decision is certainly an unprecedented one—there has been nothing like it in Alberta legal history.

The fact that Michael Borys, Leduc farmer, owns the natural gas on his land despite the fact oil companies have leased mineral rights from the CPR, who retained the rights when the land was sold to Borys' father, is bound to set off a chain of legal battles.

Oil and gas are practically one and the same thing in that production of both are simultaneous in oil development.

Final outcome of the case will certainly be interesting, especially to the many thousands of Albertans with a personal interest in the issue.

Widows Outnumber Widowers

Every census of Canada since Confederation has shown a considerably greater number of widows than widowers. The ratio has been somewhat more than two widows to every widower in each census year except 1921 and 1931. Since 1941, the proportion appears to have continued to increase and the Ninth Decennial Census, to be taken in June this year, will probably show a substantial rise in the last ten years.

One reason for the excess of widows over widowers is that the expectancy of life of females is greater than that of males. At birth it is 69 years as compared to 65 for the male child. Secondly, it is customary for the husband's age to exceed the age of his wife. In 1941, wives of men in the age group 35-64 were, on the average, four years younger than their husbands, and in the age group 65 and over, six years younger. It would thus be expected that the death of the husband would occur earlier than of the wife. A third reason is that a higher percentage of widowers than of widows remarry. In 1947, for example, 3.6 per cent of the estimated number of widowers remarried, and only 1.5 per cent of the widows.

Note and Comment

Only when citizens are aware of the fact that they, personally, have to pay for the cost of government and governmental services do they realize that they, personally, have responsibility in seeing to it that government is operated efficiently.

The Bible Says:

"Have mercy upon me, O God . . . for I acknowledge my transgressions and my sin is ever before me."—Psalm 51:1-3.

Should Baby Know She's Adopted?

By T. W. PUE

If you were to adopt a baby, would you tell her she's adopted? If so, how would you tell her?

Would you ever, at any time, make your foster child believe that she is a flesh and blood offspring?

TRAGEDY AT SIXTEEN

T. W. PUE

There was the case of the baby whose parents took every precaution to keep from her, as she grew, the truth of her entrance to the family. Mary was a happy baby, and grew into happy childhood. She was never told by her parents that she was adopted, and was led to believe she was just like any other child to her parents.

Then one day it happened. At 16 Mary attended her first evening school party and some inconsiderate friend hinted the truth. She was panic-stricken and rushed home to confide in her parents. They were shocked because they believed their secret was wll kept. But the truth was out and in desperation they relayed to the daughter they loved the story of her adoption.

Mary's first thoughts were of resentment for her foster parents, and then of a wild desire to seek and find her natural mother. Needless to say the happy family fellowship was broken on three sides and resulted in human tragedy.

KNOWLEDGE AT SIX MONTHS

Then there was the story of the John Smiths. They had waited five years for a child of their own. The adoption agency handled the transfer of Jeannie without either the mother or foster parents even knowing of the other. Jeanie was four and a half months old when she came into the Smith household and from the start she knew she was adpoted.

How could a six-months-old baby know what adoption meant? Well, she couldn't. But she heard the word frequently when she learned to speak the first few words of babyhood and time and again her mother and father told her how she came into their family. The story, as familiar as the three bears and Jack and the bean stock went something like this:

"Jeannie, we want to tell you a beautiful story. Once upon a time Daddie and Mummie had no little baby girl, and they wanted one. So they asked God to send them one and they told the Doctor to pick out the best baby he could find in the hospital.

"One day the doctor phoned up and said 'I have a very pretty baby here that I think you'd like very much. Will you come and see it?' So we both went over to see this beautiful baby and imagine our surprise, Jeannie, when it turned out to be you. Of course, we fell in love with you right away and brought you home to stay with us. So that's how we adopted you, Jeannie dear."

Jeannie is now 12 years old and there is perfect understanding between her and her parents and baby sister. Yes—the Stork must have been aroused by the competition of the Adoption Board, because he produced baby Delilah within two years.

Perhaps you've already got a first class worry on your hands because you've never told Mary she's adopted. A cute little girl, now eight, she trusts you as her parents. You must tell her the truth. Here's one way to do it:

After dinner, draw Mary down upon the arm of your easy chair. Then continue as follows:

"Mary, I want to tell you a beautiful story. It is true, too!

"About 10 years ago I met a lovely young woman. She was so attractive, I fell in love with her. It was your mother.

"Luckily, she also fell in love with me. So I picked her for my wife and she picked me for her husband.

"But we had been total strangers up till then. We were not of any blood kinship at all.

"However, I feel closer to your mother than I do to Aunt Sue and Uncle Harry, who are my sister and brother—my blood relatives.

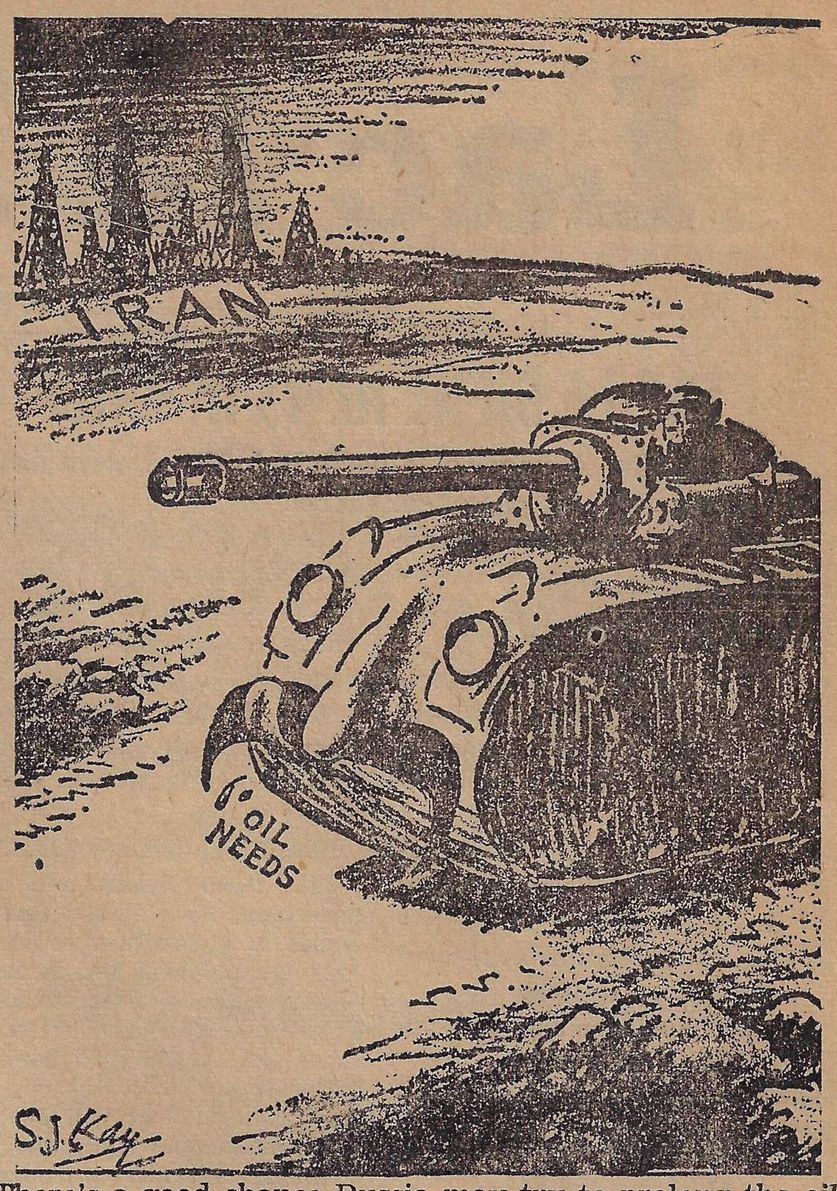

"Well, a couple of years passed. Mother and I were very happy except for one thing. We wanted a little girl. So we began looking around and found you. We fell in love with you at once and picked you to be our daughter.

"You and Mother and I are not of any blood kinship to each other.

"No, we are bound together by a far stronger bond than blood relationship, for we are linked by love and affection.

"We stick together because we want to do so, for we love each other and have chosen each other. We are a happy team."

Mother should meanwhile have slipped down upon the other arm of Daddy's chair. He can then give her and Mary a hug to seal this solemn pact, and Mary will never henceforth feel she doesn't "belong".

There's a good chance Russia may try to prolong the oil crisis in Iran. Soviet armies are already casting covetous glances at the Iranian oil fields.

Voice of the People

"VOX POPULI, VOX DEI"

SAYS WE'RE PUNKS

Dear Sir—As a newspaper your sheet is rotten and my vision of your writers the poorest punks in the business. You have shown by your trashy editorials you have no respect for the opinions of other people.

Jasper Place CITIZEN.

IN THE BIBLE

Dear Sir—In reply to F. J. McNey's question about the differences in the two genealogies recorded in Matthew and Luke: Matthew traces the legal right of Jesus to the throne of David through Joseph, and Luke the blood right of Jesus through Mary, because of the Virgin Birth. Two different families account for the different names and number of generations.

Edmonton R. B. SNYDER

GENEALOGY OF CHRIST

Dear Sir—I would advise Mr. McNey the genealogy of Christ in Luke is traced through Mary. At that time the Jewish custom was to make the husband the legal son of the wife's father. If you have a King James Bible, note when it says "Joseph, which was the son of Heli," there is a marginal reference which say "son-in-law." Both Mary and Joseph were descendants of David. The word of God is infallible. It's the translators, I fear, were not.

MRS. E. COOREMAN.

North Edmonton

THE FARM TRUCK

Dear Sir—During the past 10 years many farmers have found it necessary to purchase a truck. Before purchasing they had to decide the most suitable size and decided on a two-ton truck with 7.50x20.00 tires. (On this truck the government allowed 18,000 pounds gross.) The farmers had a box built to suit this weight. This box could be loaded with any kind of grain without fear of overloading. The government has now lowered the weight to 16,000 pounds. This is not only destroying the usefulness of this truck, but forcing the farmer to guess h' load weight correctly, or be prosecuted and fined.

Crossfield A FARMER

THE EAST HAS ITS SAY

Dear Sir—Some people say high prices are caused by profiteering by some companies. Official figures deny the truth of this statement. In ratio to all prices, profits of Canadian corporations have remained relatively constant.

Toronto C. J. HARRIS.

TIE TORTURE

Dear Sir—Nothing is more irritating than a stiff collar and tight tie when the weather gets hot. I envy the untidy but comfortable dresser who cheerfully sheds coat, jacket and sweater in the summer. I say let's ban ties in Alberta during the summer time. Whew! Am I perspiring!

Edmonton VARSITY STUDENT.

HE TAKES PUSSY

Dear Sir—Can anyone explain to me why Canadian women can't act like real helpmates to their husbands? I like this country very much, but when I want a wife I'll go back to the old country. There the women are docile, obedient and easy to get along with. The Canadian wife is ill-mannered, greedy, arrogant and selfish and acts like a spoiled cat. In fact, I'd rather have a tabby cat for a house companion.

Boyle STEVE.

CHEERIO FROM ALFIE

Dear Sir—Before I sail for dear old Blighty, after spending six weeks of enforced exile in your laughable country, may I say that your so-called game of rounders, or baseball, leaves me cold? The vulgar mannerisms of the players and their ridiculous uniforms make me wonder if I am seeing straight.

ALF LUMBY.

FLIGHT TO FREEDOM

Dear Sir—May I disagree with those Canadians who oppose the entrance of displaced persons into free Canada? I am one myself—a former university student in Europe who at present is grateful to be a laborer in your province. Please do not forget that the majority of DP's accepted by Canada refused to be Communists, and would be killed or put into jail for their beliefs if they should go home. As long as there are dictators, I hope that your country and other free countries will provide exile for us.

Edmonton NAME WITHHELD.

A DREAM BUSTED

Dear Sir—I was broken-hearted when I heard that Rita Hayworth and Aly Khan were busting up. Rita's fairy tale sustained me in hours of bitter need — when Shirley Temple and Elizabeth Taylor canned the dewy romances after short spaces of stormy bliss. Now I'll never dream again. Pass the kleenex — I'm going to sit down and have a good cry.

Edmonton SWEET SIXTEEN.

Singing With Dance Band Best Route to Hollywood

HOLLYWOOD. — (Special) — Listen, all you gals with ambitions to go to Hollywood!

Singing with a dance band is the best training for a screen career, according to Marilyn Maxwell and a host of other stars.

And if Marilyn needs proof, she can easily point to Betty Hutton, Betty Grable, Dorothy Lamour, Gloria De Haven, Ann Sothern, Janet Blair, Alice Faye, who came straight to Hollywood and stardom via the same route.

As his next nicture at Columbia, Broderick Crawford will appear in "Dark Page", in which he plays a newspaper editor who becomes involved in a murder.

If plans can be worked out satisfactorily, Shelley Winters and Farley Granger, who have wanted to make a picture together for ages will be together in "Behave Yourself". The story's a satire on gangster stories.

Hedy Lamarr surely has a change-of-pace in her role with Bob Hope in "My Favorite Spy". In her part, she'll be slugged unconscious, engage in a free-for-all with Hope, ride a fire engine through a busy street and will do a chase inside a fire station, even to sliding down the brass pole.

Clifton Webb will do his first singing in "Mr. Belvedere Blows His Whistle".

Penicillin Claimed Most Effective Drug

MONTREAL—(BUP) — Penicillin, despite the discovery of new wonder cures, is still claimed as the most effective anti-biotic drug.

Dr. George A. Valley, chief bacteriologist of the Bristol Laboratories, Syracuse, N.Y., said here recently that penicillin was the top choice among anti-biotics for three reasons. He enumerated these as:

1. Doctors know what can and what can't be accomplished with the drug.

2. Doctors know the safety and efficiency of penicillin, as well as the fact that it attacks more types of germs than other drugs.

3. Penicillin is cheap.

Dr. Valley admitted that some doctors were reluctant to prescribe penicillin out of fear that their patient may be allergic to the drug. He said that penicillin does not harm bacteria or organs

Plan Golf Course At Arctic Circle

OTTAWA, Ont. — (BUP) — The Canadian government travel bureau said today that golf will be played this year at a point 28 miles south of the Arctic Circle.

The golf course is located at Pangnirtung, an isolated settlement on the north shore of Cumberland Sound. It is the northermost golf course in the world.

However, it will be some time before the residents of the northerly community will be able to tee off. The first game usually is played after the snow has melted in July, and the last game before the end of August.

The course is built entirely on tundra, a moss-like substance of only a few inches thickness covering rock or perma frost.

Blind M.D. Carries On Medical Practice

REGINA, Sask.—(BUP) — Dr. R. C. Maryfield said a dimly-remembered tip from a professor enabled him to continue his medical practise even though he has been blind since 1939.

Dr. Maryfield said after he became blind, he recalled a professor's words that diagnosis was based 70 per cent on case history, 20 per cent on touch and 10 per cent on sight. He said he worked towards eliminating that 10 per cent.

However, there were occasions when blindness was a handicap—like the time a patient insisted that the doctor pull a tooth.

Canada To See First TV From New Montreal Studio

MONTREAL. — (BUP) — About this time next year, Canadians will see their first telecasts from Montreal.

The Canadian Broadcasting Corporation's much-heralded and ballyhooed TV transmitter tower will be under construction by late May.

Less than a year later, the CBC said, Montrealers will see TV experimental telecasts, in readiness for the full-scale opening of Canada's first TV.

CBC officials said the new TV tower, to be built atop Mount Royal in the heart of Montreal, will rise 300 feet above the sod, the maximum allowed to avoid interference with aviation traffic.

A building erected on an area 100 by 150 feet will house the transmitter, presently in storage awaiting removal to the TV site.

Meanwhile, the nation's first TV studio already is well underway at the CBC's spacious headquarters on downtown Dorchester Street. A TV section will be incorporated in the main building.

CBC General Manager Dr. Augustin Frigon, who has nursed the TV project through its initial stages, said limitation of the transmitter tower to 300 feet would prevent commercial TV stations operating from the same tower.

"If the tower's height had not been limited," he said, "it would have been possible to pull all the stations, CBC and private, on the same mast."

Frigon emphasized that the 300-foot tower would mean only the national system's TV and FM services would be able to operate from the tower.

A second TV transmitter tower will be under construction this year at Toronto.

New Doctor Coming To Smoky Lake

SMOKY LAKE — At present there is no doctor at the Smoky Lake Hospital but one will be coming in a very short time. The nurses are still making their residence at the Nurse's Home.

Home And School Plans To Hold Framing Ceremony

VILNA — Home and School members are reminded that Tuesday, May 15, is the date set for the regular meeting in the usual place. Mr. Kostash will be in attendance and the Framing Ceremonies with regard to the Charter will take place.

Baby Roy Viteychuk has been home from the Lamont Hospital for the past three weeks. He is progressing very favorably and it should not be long before he will be home for good. Roy is scheduled to go back to Lamont around May 10.

Helen Halownia, who is on the staff of the Dominion Bank here, is away on a well-earned vacation to Calgary and Banff. During her absence we notice another girl is being trained.

With the Lenten season now in the past, dances are again in the limelight, with the result that two were held in the same week. One was on April 30, sponsored by the Ukrainian Catholic Association, and another on Friday, May 4, sponsored by the local curling club.

Mrs. Harold Mawson is on her way to Colington, Ontario, to spend a few weeks taking care of her mother, who has had the misfortune to fracture her knee.

Mr. and Mrs. Paley and daughter, Shirley, spent Ukrainian Easter with Mr. and Mrs. I. Goresky and family of Thorhild. Mrs. Mary Paley, mother of Bill and Ann, was down from Edmonton.

Southern Alberta Farmers Await Benefits From Huge St. Mary River Dam Project

(By British United Press)

Southern Alberta dust bowl farmers are waiting impatiently for the finishing touches to be put on the St. Mary River dam, the largest earthen dam ever built in Canada.

At a date in July yet to be set, Federal Agriculture Minister James G. Gardiner, Alberta Agriculture Minister David Ure and other federal and provincial authorities will meet at the dam site, 25 miles southwest of Lethbridge to officially declare it open.

The dam was described as the key to the St. Mary - Milk river development, designed to bring water to an additional 450,000 acres of thirsty land between Lethbridge and Medicine Hat.

While the farmers know it will be some time yet before water actually comes to the land, they also know the first step in the $30,000,000 enterprise has been completed.

The federal government spent $6,000,000 on construction of the dam since 1946 and was expected to lay out another $9,000,000 on construction of reservoirs, connecting canals and spillways. Those sections were the federal government's responsibility under a dominion-provincial contract in which Alberta committee herself to carry the water to the land after it was demanded.

Alberta spent $2,500,000 last year and allocated $3,000,000 this year to build main canals and hold up its share of the bargain. It was believed the province will have spent $15,000,000 when the job is completed several years from now.

The largest earthen dam ever built in Canada, the St. Mary dam rises 202.5 feet above the lowest point of its foundation in the river bed. The crest is 2,536 feet and it is 1,480 feet wide at the base.

The St. Mary reservoir, yet to be built, will store the diverted waters of the Belly, Waterton and St. Mary rivers. It will be 17 miles long and its greatest width will be six miles. With a depth of 175 feet, it will have a storage capacity of 320,000 acre feet and 285,000 acre feet of that amount will be live storage available for irrigation.

ALTA. TO OPEN LAST FRONTIER

A vast tract of 25 miles northwest of Spirit River is being opened up for homesteading by the provincial government.

About 356 quarter-sections will be offered by the Lands Department. The area is about 30 miles wide and 18 miles deep.

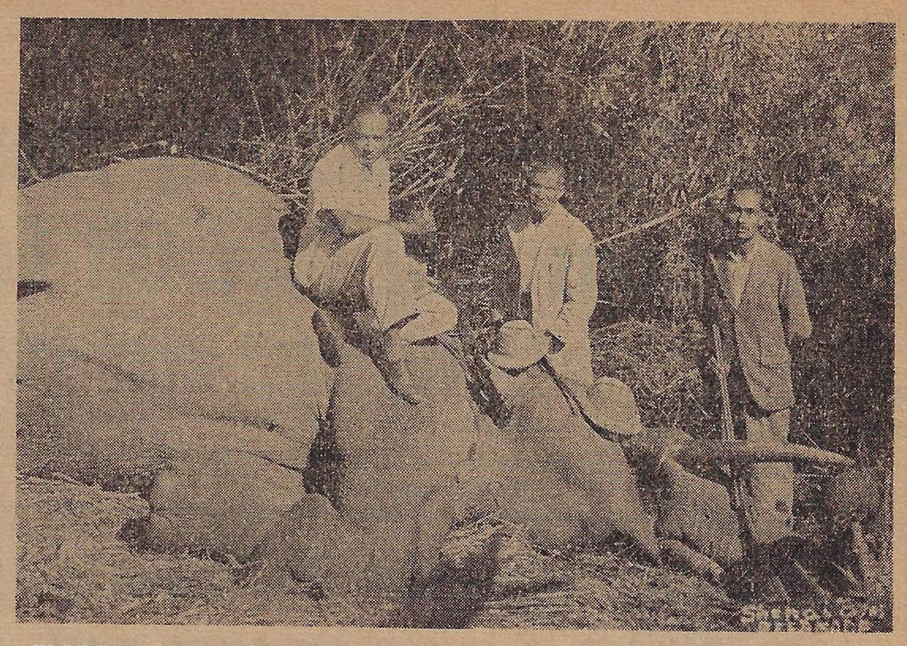

Any Canadian citizen of 18 years of age or older, and a resident of Alberta for two years, can apply for a homestead lease.

Canada's Sugar Beet Crop Tops $17 Million

Canadian farmers received a record $17,242,000 for their 1950 crops of sugar beets which totalled 1,115,699 tons.

Beet sugar production from this crop was 299,727,165 pounds —by far the largest output in the Canadian industry's history and one-third more than production from the 1949 harvest

Canada's seven sugar factories also turned out 46,857 tons of dried beet pulp, 90,000 tons of wet pulp, and 40,007 tons of beet molasses, all of which are valuable by-products that find ready markets.

INDIA tea plantation of W. A. Milner was seldom marauded by wild animals, but here is an elephant shot by district game warden. See story below.

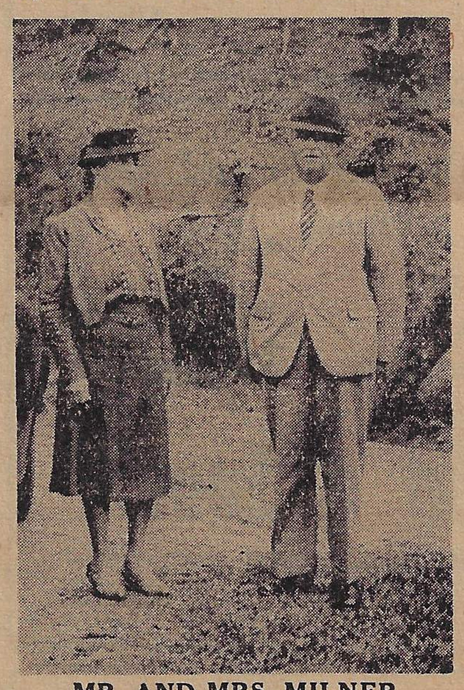

Tea Planter Views Alberta As Land of Great Future

W. A. Milner, a tea planter in India for 43 years, views Edmonton as a city of opportunity and Alberta as a province with a great future.

Mr. Milner is visiting in Edmonton at the home of Mr. and Mrs. T. W. Pue, 10915 81 Ave. He is Mrs. Pue's uncle.

He is on his sixth leave of absence since he went to India in 1909. This is his first visit to Canada. Mr. Milner stopped in England en route to Alberta, and will visit there again when he returns to India next month.

He is manager of a 650 acre tea plantation employing about 1000 coolies. Plantation is in the province of Travancore, and is owned by the Travancore Tea Estates Co.

MR. AND MRS. MILNER
. . . Tea Planter

Mr. Milner's wife passed away during their recent visit to England.

Mr. Milner likes to talk about his life in India, and is eager to tell of the tea industry.

"It's the most popular drink in the world," he says, "and over 300 billion cups of tea are enjoyed in the world every year."

According to legend, tea was first drank in China, during the reign of the Emperor Shen-Nung about 2700 B.C.

Despite the prevalence of wild animals in some sections of India, Mr. Milner says he's never seen a live tiger.

Only the occasional elephant or leopard marauds the plantation, according to Mr. Milner.

Nearby is a big game reserve, where animals are protected.

Change-over from India's status of colony to republic affected the industry very slightly, Mr. Milner says.

"There's no hard feelings between the Indians and British, and the change-over didn't affect us much."

When in the city shop around the corner and save.

Lac la Biche Sports Day Event of May 24 Four Teams Will Play Off For Prizes

LAC LA BICHE—At 1 o'clock on May 24, the umpire will call "Play Ball" and the Lac la Biche sports day and ball tournament will be officially opened.

Sponsored by the local ball club, the sports day is expected to draw people from points throughout the district.

Three men's hardball teams will compete along with the Lac la Biche team. Briereville, Boyle and Wandering River are being invited to enter. Cash prizes that should come in handy for new equipment or for travelling expenses are being posted. The team that comes out on top will walk away with $40. Second prize is $15.

The Lac la Biche ball team held their first practise of the season last week and executive of the teams says the club looks promising this year. Some new players will be introduced to fans and old favorites from other years will be with the team for another season. Two weeks of stiff practise will be put in by the players before the tournament on Victoria Day and the team will be playing to keep the big money at home.

Four games will be played during the afternoon and the winner will be decided by a draw, the last two teams playing off to decide on first and second prizes.

Roy Reines is manager of the Lac la Biche ball club; H. McCormack is president and Mike McCagno, secretary-treasurer.

During the day the Lions club will run a concession on the sports ground with hot dogs, soft drinks, ice cream and everything that goes with a sports day.

A dance in the evening will finish off the day's entertainment. Hosts at the dance will be the Lac la Biche branch Legion.

The town of Lac la Biche will throw open its doors to welcome visitors for this first sports event of the year to make it a big day right up to the time the dance finishes in the wee small hours of Friday. The four ball games will provide spectators with plenty of entertainment and excitement. With only two weeks or less of warm weather for players from the four teams to practise in, much will be up to individual players when May 24 comes along. There will be no time for organizing teams so plays will be down pat and players will act in co-ordination.

Start Early To Get Glamour Tan

Sunburn can spoil all the fun of the vacation you've anticipated for months. By acquiring your golden-brown tint in slow instalments, you can avoid all the pain and misery that go with too large doses of King Sol. Start in May to take daily ten-minute "sunnings" for the first week, fifteen minutes for the second week and so on. By vacation time you'll have a protective coating of tan to ward off sunburning.

OIL MAKES A COUNTRY STRONG

WHEN DID THEY OPEN UP THE WEST?

The "opening up of the west" didn't end when the railroads and the settlers and the wheat had come. Nor is it ended today. It is a continuing story of our country's growth and each generation adds its chapter.

Today it is prairie oil that holds out new opportunity, bringing with it new benefits and new security.

In four years discoveries in the west have increased Canada's proven oil reserves more than fifteen fold and the production of crude is six times what it was. These advances, and the half-billion dollars the oil industry has spent on them, have not benefited the west alone. All of Canada is stronger and more prosperous.

Our people and our factories have been made busier by the needs of the growing oil industry. There are new jobs and new businesses. Many millions of dollars once spent for foreign oil now stay at home—or are available for other purposes. And of special importance, our supply of oil is being made more certain, less dependent on sources beyond our borders.

Opening up of the west goes on, bringing closer Canada's self-sufficiency in oil, giving new strength to the nation.

IMPERIAL ESSO PRODUCTS IMPERIAL OIL LIMITED

THESE THREE five-year-olds, Constance Lindner, left, Brampton; Ross Walpole, Lakeview; and Sharon Blackburn, Port Credit, stole the show at the Peel county musical festival, as they all received gold medals in the piano solo class. The festival, second largest in Ontario, attracted 5,000 entries.

The LIGHTER SIDE

Never Have

"I wonder why there are so many more auto wrecks than railway accidents?"

"That's easy. Did you ever hear of the fireman hugging the engineer?"

They're Thankful

"I wonder how Thanksgiving originated?"

"It was probably instituted by parents whose sons had survived the football season."

Fooled Him

"So you and Charlie are married. I thought all the time it was just going to be a flirtation."

"So did Charlie!"

Nearly True

Customs officer: "Lady, you said this bag contained clothes, but it's full of brandy."

Woman: "Certainly — my husband's nightcaps."

Difference of Opinion

He: "I know a man who has been married 40 years and spends every evening at home."

She: "That's what I call love."

He: "The doctor calls it paralysis."

Overtime Sleeper

Chief: "How come you're late this morning, Joe?"

Fireman: "I overslept."

Chief: "What! Do you sleep at home, too?"

Two Reasons

"I'll bet you think twice before leaving that wife of yours alone for an evening. Am I right?"

"I'll say. First, I have to think up an excuse for getting out, and then a reason why she can't come."

It Didn't Help

One day as I chanced to pass,
A beaver was damming the river.
A motorist who had run out of gas
Was doing the same to his flivver.

Calendar Marriage

"So you're married life is very unhappy. What's the trouble, December married to May?"

"Heavens, no. It's Labor Day married to the Day of Rest."

Romantic Jumble

"Slippery ice, very thin; pretty girl tumbled in. Saw a boy upon the bank — gave a shriek and then she sank. Boy on bank heard her shout, jumped right in — helped her out. Now he's hers — very nice; but she had to break the ice."

Court Rules Oil, Gas Are Different Products

The Supreme Court of Alberta Wednesday ruled that natural gas and petroleum are distinctly different products.

The judgement is of great importance in Alberta where unprecedented development of petroleum and natural gas is going on hand-in-hand.

George H. Steer of Edmonton, counsel for the plaintiff who alleged that petroleum and natural gas were different, said "The case will have a bearing on a great deal of land in the province which was bought without reservations against it in the early days"

But a high Government official said the case will have little bearing.

The official, H. H. Somerville, Assistant Deputy Minister of Mines and Minerals, said the Alberta Government holds title to 90 per cent of all the mineral rights outside of Dominion parks in the province. He said these mineral rights cover both petroleum and natural gas.

The judgment said that Michael Borys, a farmer, owns the natural gas within, upon and under his quarter section of land in the heart of the rich portion of the Leduc oilfield, 21 miles south of Edmonton.

CPR SOLD LAND

Defendants were the Canadian Pacific Railway, which sold the land to Bory's father, and Imperial Oil Limited, lessee of the petroleum rights to the land which the CPR reserved for itself when the sale was made.

"SMALL PORTION" AFFECTED

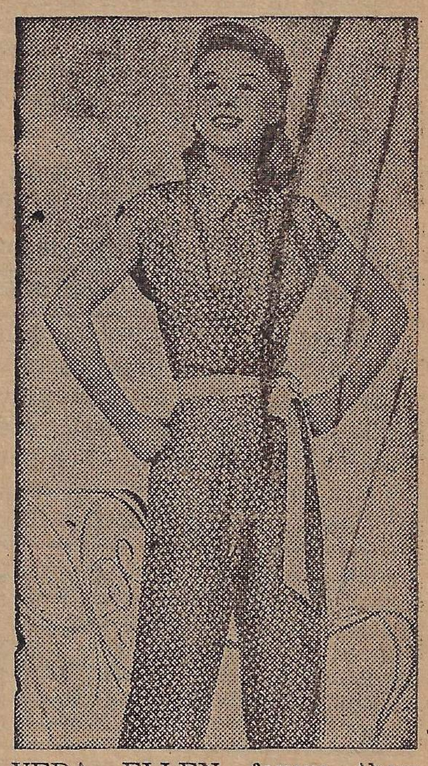

The judgment will concern "only a small portion of the remaining 10 per cent of mineral rights," Mr. Somerville said. The Government has taken over the mineral rights on some of this 10 per cent for tax forfeiture under the Mineral Taxation Act of 1941.

Another Government source said more than 5,000 Alberta farmers holding about 2,000,000 acres of land might benefit from the judgment if it help up. The number located in oil or potential oil areas was unknown.

'Orange' Trim Replacing Chrome On New Cars

Canada's first chromeless cars are rolling off the assembly lines at a time when sales are beginning to slump in new and used cars.

A Ford dealer, who returned this week from Windsor, reports that the new cars have a bright, almost orange-colored metal on trims and grille work to replace the shiny chrome fittings.

"They are not unattractive at all," he said. "Just different."

CONTROLS TOUGH

Some of Edmonton's major dealers report this week that sales have slumped considerably in new and post war models since credit restrictions were introduced in the new budget.

Requirements of one-half down and 12 months to pay, make it tough for the average person to buy a car.

Pre-war cars are affected differently because as down payments mount on the new models there has been a step-up in the demand for older vehicles.

Prices have been climbing rapidly on these models.

Automen here think that newer used cars are at about their lowest levels, and when the new taxes and production cut backs begin to be felt more there will be an advance in price.

Principal Chairman At School Festival

BOYLE — A successful non-competitive festival of plays, folk-dances, songs, and choral speech was presented in the Dreamland theatre recently by the school before an appreciative audience of about 300. Principal W. A. Deeprose welcomed the parents in an opening speech, explaining the nature and the purpose of the program.

All numbers were excellent, with colorful costumes enlivening most items. Representing Grade 1, taught by Mrs. N. Mikelonis, a group of small boys performed an action song, "The King's Navy."

Two tots from Grade 2, directed by Mrs. M. Divernychuk, who danced the French Minuet in beautiful costumes, received much applause.

In an action song, "Storyland," Miss M. Pundy, Grades 3 and 4 teacher, had fairy-tale characters popping out of an enormous book at it opened and closed.

The outstanding chorus, "Fairy Queen," was sung by girls of Grades 5 and 6 trained by Mrs. J. Bolton.

A choral speech selection, Sir Brian Botany, conducted by Mrs. A. Hutzel, was well received.

During the evening the Grade 9 dramatics class, directed by Mrs. K. Armstrong, appeared in two well-chosen one-act plays, distinguished by exceptionally fine acting.

Lions And Wives Attend Banquet

RADWAY — Eight Lions and their wives journeyed to the Lions Banquet at Fort Saskatchewan on April 30. A very enjoyable time was had by all.

Dr. J. Johnston, president of the Fort club presided, and Rev. Bill Buxton, past president, was guest speaker.

The regular Lions meeting of the Radway club had to be postponed from May 1 until May 9 on account of the heavy rain. The date of their Charter night anniversary banquet has been changed to Friday, June 8.

Sugar beets grown in Southern Ontario in 1950 brought a cash return of more than three million dollars to the farmer-growers.

FAIRBANKS-MORSE
ELECTRIC GENERATING PLANT

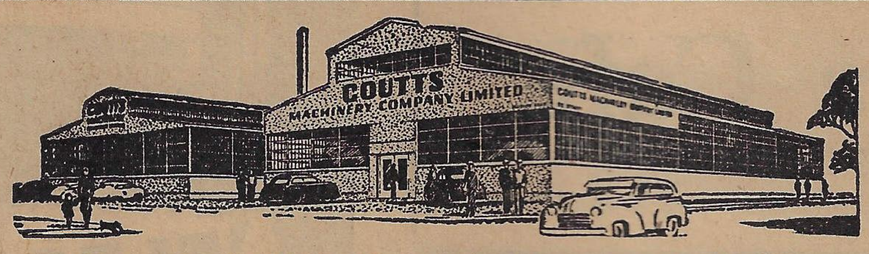

Yes, all the advantages of electric power can be yours. No matter what the size of your home or farm, there is a Fairbanks-Morse Electric Generating Plant to suit your needs. They range in power from the simplest model, furnishing electricity for small homes, to bigger capacities providing enough power for large farms. F-M Electric Plants are available in A.C., D.C., or combination A.C.-D.C., suitable for mobile or stationary service. They produce steady, flicker-free quality of city and rural highline power. Economical to operate and maintain, the average consumption of F-M Electric Plants averages about one quart of fuel per kilowatt hour at rated capacity.

You can be sure of the reliability and workmanship of FAIRBANKS-MORSE Electric Generating Plants, for every plant is fully run-in, thoroughly tested and guaranteed for one year. Don't be without the convenience of electric power any longer! See your nearest FAIRBANKS-MORSE dealer, or use the coupon to get full details!

Canadian Defence Program 'Insurance for Peace'

WINNIPEG, Man. — (BUP) — Defence Minister Claxton said this week Canada's three-year defence program was insurance for peace, but because the risks were great, the premiums were high.

Claxton told a luncheon meeting of the Winnipeg Canadian Club the Government would make available approximately $1,879,000,000 for defence purposes, including defence production, mutual aid and other fields. The three-year program called for expenditure of $5,000,000,000, he said.

"We are making this effort because strength is the first essential to preserve peace. We must keep our economy strong because it is obviously part of Russia's plan to have us weaken it so that we destroy ourselves," Claxton said.

The object of the expanded defence plans, he said, was to prevent war by deterring aggression and by making it plain that aggression does not pay.

PRICE OF PEACE

"The price of peace is never too high except it be at the cost of freedom — there is no life without liberty."

Claxton outlined the three objectives of the plan. They were: The immediate defence of Canada and the North American continent against direct attack: to implement undertakings made by Canada under the charter of the United Nations or under the North Atlantic treaty; and to build up strength in the event of total war.

Regarding the last objective, the program called for an increase in the strength of the armed services from their present 90,000 to 115,000.

Claxton said every cent spent on defence (except for local civil defence) directly contributed to the defence of all of North America, including the United States.

"It is out of the question for 14,000,000 people to a country of 3,500,000 square miles to be impregnable against aerial attack. Our defence network is being completely planned, integrated and organized with that of the United States, so as to form a single system," he said.

The Minister said events in Korea, important and difficult though they were, "must not obscure the fact that the focus of global defence is in Western Europe."

He said it was this conviction that led to the formation of the North Atlantic treaty organization two years ago, under which the framework of an integrated force has been set up under Gen. Dwight Eisenhower.

"At the present time it is not envisaged by any competent military expert that the Communists would mount a large scale attack on North America at the outset of a world-wide war.

"It is not believed that they would have either the ships or the aircraft to undertake such a job at this time.

"On the other hand, we do know that Russia has a considerable number of four-engine medium bombers of the B-29 type, capable of carrying a load of about five tons to almost any part of North America at a speed of about 300 miles an hour."

Claxton said the planes were large enough to carry Atom bombs, high explosives and other weapons.

Height of the Rock of Gibraltar is almost 1,500 feet.

Power Off 11 Hours After Pole Burns

At 9 a.m. on May 1 the power went off and the lights did not come on until eleven hours later. The Canadian Utilities report that the power failure was caused by fire destroying one of their poles and snapping several wires near Andrew.

Three inches of rain fell during the last few days. Sub-soil moisture conditions are the best in years, but low places in the fields are covered with water.

Dr. R. J. Lastiwka spent a few days in Edmonton, where he attended a refresher course at the University.

Miss Lucy Dedeluk is working as a bookkeeper at the N.A.D.P. Creamery at Radway. She completed a business course in College just before taking the position.

Mrs. H. Watson has gone to Belloy. She took her father back with her. He had been in hospital for nearly two months and was unable to travel alone.

The Village of Radway has hired two assessors, Mr. Doran and Mr. Yurkiw, to do the Village assessment. Though delayed by the rain, they should complete the job in a few days.

NEW PENSION PLAN WILL AFFECT THOUSANDS HERE

Thousands of Albertans will get on the old age pension list next year if Ottawa's new national pension scheme goes into effect on schedule.

Federal and Provincial governments will get together on May 21 for more talks on the approved old age pension scheme.

The conference will deal with the legal side of the pensions, which will provide $40 a month for every Canadian over 70 years of age. Lesser amounts, based on need, will go to persons between 65 and 70.

Prime Minister Louis St. Laurent announced the talks today as the Commans passed a formal resolution asking the British Parliament to amend the North America Act to make way for the scheme.

The resolution went through Commons with almost no debate. It's to go to the Senate this week, and then will be rushed to England.

The reason for the rush is the fear that the U.K. Parliament may adjourn for elections before it can put the rubber stamp on the Canadian document.

Included among the new pensioners will be many who do not get pensions because they have means of their own.

If their "Jack and the Beanstalk" is successful, Lou Costello and Bud Abbott plan to make one picture anually based on famous children stories, to be made in color and released around Christmas time. Sounds like a fine idea!

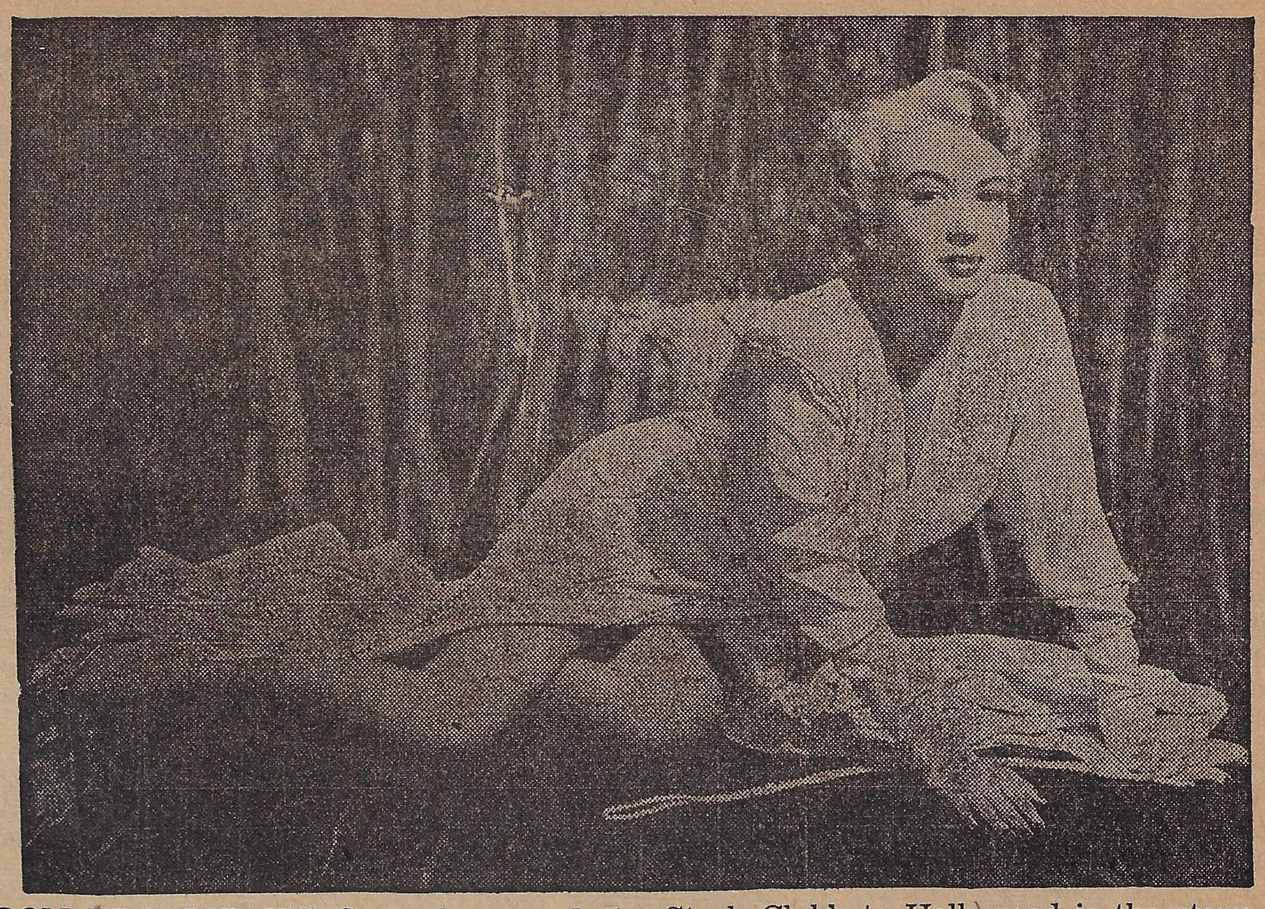

Hold Kids' Parties Outdoors To Save Wear, Tear On House

Before too long the weather will permit out-door birthday parties for the kiddies. This means even more to mothers than to children, for it cuts down chances of broken lamps, stained carpets and smashed ash trays—that seem the natural result of a party held inside the home.

It also makes possible a larger variety of games and entertainment. For instance, pony carts for the young tots and swimming for the older children.

For the little girls, a color contest is an old favorite. Something that is bound to be a success is a small favor. Then, for entertainment, provide the very young ladies with a table of cut flowers and give a prize for the most attractive arrangement.

The old standard, ice cream and cake refreshments, are still a big favorite. However, it seems a good idea to serve something a bit lighter. Try orange juice or grape juice with the birthday cake. There's less chance of having a sick child on your hands.

FROM BROADWAY'S Copacabana and the Stork Clubk to Hollywood is the story of Monica Lewis. She was doing all right in New York's plushier night clubs when Hollywood beckoned enticingly so Monica packed up and went west. You'll be seeing her next with Red Skelton in "Excuse My Dust".

Alberta Wheat Pool Sponsors Farm Young People's Week

The Alberta Wheat Pool is sponsoring the attendance of 35 farm boys and girls at Farm Young People's Week being held in Edmonton early in June.

The young people are nominated by the farm organizations from throughout the province who submitted over 100 nominations. The winners are decided by a draw.

Names of the winners will be announced on a special program over radio station CFCN Calgary on Tuesday, May 15, at 10:15 p.m., immediately following the Wheat Pool news. Names of winners from the northern part of the province will be announced on the Wheat Pool news over radio stations CJCA Edmonton and CFGP Grande Prairie at 10:00 p.m. the same evening. Names of the winners from the south will be given on the Wheat Pool's special farm program over CJOC Lethbridge at 12:15 p.m., Wednesday, May 16.

Rich Asbestos Find In Northern B.C.

DAWSON CREEK, B.C. — (BUP)—Increasing activity has been made in the McDame Creek, B.C., area, 60 miles west of the Alaska highway on development of an asbestos find.

Company sources reported that samples have been valued as high as $12.50 per ton.

Leading the exploration and development work are the Asbestos Corporation of Canada and the Con West Mining Company.

The mining company recently purchased sufficient lumber for construction of 28 homes at the mill site, with further development expected as the find is developed.

Ann Blyth is in England where she will co-star with Tyrone Power in "The House on the Square". After that, she and relatives will visit with relatives in Ireland, some of whom Ann has never seen.

EGG LAKES NEWS ITEMS

Mrs. A. L. L'Heureux has arrived home from Excelsior Springs Missouri, where she had spent several weeks, being treated at the Ball Clinic.

Bouvier School has a new teacher. Miss Elsie Chomay arrived May 2, and started teaching May 3. The same day, Miss Marie Jeanne L'Heureux gave a party at her home, in the evening, to welcome the new teacher, and as a farewell party to Miss Ann Zuk. About 25 persons were present and everybody had a good time. The school pupils surprised their teacher by singing a song she had taught them.

The mailman at last can come with his truck to take our mail. After several weeks of terrible roads, they are again passable, thanks to the co-operation of all th residents of the district, who have worked the roads with their own tractors and machinery, with no cost to the government. The district is always forgotten when it is time to fix our roads, but we are always remembered when it is time to pay our taxes.

GRASSLAND NEWS BRIEFS

Miss Jean Harrington, District Nurse from Wandering River, has been staying for a few days with Miss Ries, and left for Plamondon on Thursday.

Miss Gawryletz, Miss Paronich and Miss Morsch, teachers at Grassland School, left for a convention in Edmonton on Wednesday.

Some of the boys went fishing in the creek recently but found the water too muddy for successful sport.

School softball teams are getting ready for the summer.

Nick Derko, the new councillor, has commenced his new duties, attending his first meeting on Tuesday, and will return to another meeting on Thursday.

After the recent good drying weather, farmers are now in the fields, attempting to catch up with their delayed seeding operations.

Nick Derko has purchased a tank truck, and hopes to be able to give good service to the farmers.

Francis Garnier has started to work on his new house in Grassland, and the cellar is now completed.

Gabriel Szkorupa has made good progress after his recent stay in hospital, but has been ordered to take it easy for some time to come.

Mrs. Vince McKenzie visited her brother, Herbert Johnson, at Plamondon last week-end.

National Hall Being Remodeled Inside

STRY—Reconstruction is now on its way in the Stry National hall. The interior is being repainted, remodelled and hardwood floors are being laid.

Mrs. Nancy Klimchuk has announced the engagement of her youngest daughter Pearl to Walter Marceniuk of Edmonton, formerly of Spedden.

District farmers reported that spring work commenced Monday of last week.

Mr. and Mrs. John Dmetriuk accompanied by Mrs. Joe Verbisky spent the week-end in the city visiting relatives and friends. The trip was made by car.

Mr. and Mrs. Peter Klimchuk will leave for the city shortly. Peter is planning to get a job with a construction company where he was previously employed.

Sardines are packed closely in a can because the fish are cheaper than the olive oil in which they are packed.
